About us

We started in 2014 because an idea came to us for a new way to introduce people to Budapest that we couldn't see on the market.

This idea is to show the city as a local would but with good mobility and competent knowledge. Our guides are selected characters and experienced drivers with big knowledge of the city. They drive brand new Piaggio Calessino Ape's and these three wheeled vehicles are not just charming but also very capable of urban exploration.

In our vehicle park we currently have nine TukTuks, each vehicle is comfortable for two to three people. The fleet can operate together perfectly for groups up to our full capacity - traveling in a group of many TukTuks on the streets of Budapest is unforgettable fun for every passengers.

We created a colorful selection of tours to take our passengers through the city showing famous landmarks and hidden places on routes buses and masses never use. These tours are customizable by the passengers. You find them below. Among our customers we find the widest spectrum of people, there are lone travellers, couples, families, friend and business groups, young and old, from the four corners of the earth.

Great way to see the city!

This was the perfect way to get a personalized overview of both the Buda and Pest sides of the city. Because we were in a small vehicle we were able to get in areas that the big tour buses cannot. Our guide Peter spoke good English and had a fun sense of humor. He easily answered our questions and provided interesting historical tid-bits that you wouldn't get on an automized audio tour. Can't recommend this tour enough.

"Great Value"

★★★★★ Reviewed April 15, 2017 via mobile

I had a great experience with this tour company. First of all it is private since I only took the service with my wife and baby. Second: very convenient and comfortable since Budapest is a city with many hills and distant sites (the Tuk Tuk is allowed to enter and temporarily stop everywhere). Third, the driver/guide David was very friendly and nice with us, explaining everything, taking pictures, and helped us a lot. Fourth: in three hours you see everything so it is great for short trips to the city. Fifth: they give a ticket for the Danube river tour with a complementary drink. That tour is also great since you have a nice view and access to a good audio guide.

Amazing traditional Hungarian food

Its difficult to find traditional Hungarian food in Budapest, as the locals prefer to eat different to Grandmas cooking when they go out!

Getto Gulyas however caters for people who want to try traditional Hungarian food. The staff were very friendly, asking how me and my friends know each other, being one Hungarian, one English and one Cypriot, they were intruiged!

We had a variety of starters, goulash, savory pancakes and bread which were all superb. For mains we had beef, chicken and Venison, which all were big portions and went down a treat! No room for dessert unfortunatley!

We had a great evening and will recommend this restaurant to anyone who wishes to taste the local food! Thank you very much.

HIGHLIGHTS of BUDAPEST Exclusive Private tour 240 minimum / 79 € / person

This is our biggest tour, it covers all the major sites that other itineraries include and it is completely customizable and flexible. We often provide our guests with a longer break during this program if they would like to take a light lunch in between. Naturally this time doesn't count as a part of the four hours of the tour.

The Budapest Highlights Tour is perfect for a complete experience of Budapest sightseeing. It is good to touch the main landmarks (Heroes' Square, Citadel and Gellert Hill, Castle District-Fisherman's Bastion/Matthias Church, Parliament) and also the hidden spots and areas of the capital. In this tour You can include parts of the city that require more time because they are a bit further from downtown area.

“Wonderful way to see Budapest!”

We came across the Budapest Tuk Tuk tour purely by chance on TripAdvisor, and we certainly don't regret booking it! Our guide, Peter, picked us up promptly from our hotel and was wonderfully knowledgeable and polite throughout the tour. He dropped us off outside the DiVino wine bar - he could not have got us closer unless he drove us into the bar itself! The wine bar was lovely, the service prompt and polite - all together a wonderful way to see Budapest, and one I highly recommend!

Fantastic Experience

Review of: [Budapest Private Tuk Tuk Tour](#)

Our family of 3 went on a 2 hour tuk tuk tour and we had a fantastic time. Our driver/guide picked us up from our hotel and she took us on a tailor made tour to where we wanted to go and things that we wanted to see after suggestions from our driver/guide. Our driver/guide was very knowledgeable and went out of her way to ensure that we had a great tour experience. We had already done the bus tour but this was so much more enjoyable as we went down narrow streets that buses and sometimes even cars would not be able to get down. Would definately recommend this tour.
